## **ACS 410A Traveller with unique 'Multi-Adapter'** **Microprocessor Controlled Charger for 4 to 10 Cell Power Packs**

When you need to charge battery power packs consisting of 4 to 10 cells (4.8V to 12V) in NiCd or NiMh (700 to 6000 mAh). Comes complete with 8 different plug adapters to plug into the most common types of battery pack plugs. Comes with a very unique **'Multi-Adapter'** that attaches magnetically to most camcorder batteries, using adjustable contacts. The polarity is completely adjustable. The charger has a discharging feature for automatic conditioning of both NiCd and NiMh cells. The charger also indicates when a cell is defective and automatically switches to trickle charging once the pack reaches full capacity.

- Charges battery packs in 1 to 6 hours
- **3 Year Warranty**
- useable worldwide with 100-240V input voltage and 4 plug adapters
- microprocessor controlled
- Optional discharging feature
- Faulty cell detection
- Trickle charging
- Fast charging
