maxE Speed-Set

Product Description: maxE Speed-Set

Part.-No.: 5C07183

UPC-Code: 4013674718351

Master Carton: 4 pieces

Description:

- A **microprocessor controlled charger set with 4 AA maxE NiMH 2100 mAh**. It will also charge regular NiCd or NiMH rechargeable batteries size AA or AAA.
- Includes: **AC Adaptor with interchangeable plug system** (UK, Euro, USA & Australia) for worldwide use and **DC car cigarette lighter adaptor** for use on the move.
- **Delta V intelligent detection system** for optimizing when the batteries are ready to use; maximum cell temperature cut-off; maximum voltage cut-off and safety timer. All these functions along with the microprocessor ensure a fully automatic battery full detection and overcharge protection system.
- **Other features include;** cell polarity control, automatic matching of charging current, and charging status indicator. Fast charging current: AA 1400mA; AAA 700mA.
- Comes with ANSMANN's **3 year warranty**.

Suggested Retail: \$59.95
