**CULLMANN**  
perfectly equipped

## “Magic II Tripod”

### **The World’s Only Flat Folding Full Height Tripod!**

Known as the most compact, full height tripod available today, the MAGIC II is a tripod which photographers and video enthusiasts alike can take with them wherever they go. When folded flat, the MAGIC measures a mere 13 ¾ inches high X 1 ½ inches thick and can fit into the bottom pocket of many camera bags. It assembles in no time at all and provides remarkable stability, even when fully extended. It can also be converted into a full height Monopod, just by unscrewing one of the legs and joining it up to the removable center column. The unique one-turn mechanism allows the tripod legs to lock at one quick turn of the topmost leg portion...a Cullmann exclusive. The entire tripod is anodized in a cobalt matte finish for reflection free photos. Of course, it comes equipped with a removable ball head.

- World’s most compact, full height tripod
- **Folds flat – perfect for storage in a camera bag**
- **Quickly and easily converts to a full height monopod as well.**
- **ALL components are made of 40% fiberglass, re-enforced plastic material.**
