Universal 2000 Tripod

The "Two-in-One" Tripod" Complete Tripod/w Head and Monopod all in one!

Universal 2000 Series Tripods: The Universal 2000 series tripods are ideal for photo, digital and video use. The **unique trapezoidal closed leg design provides superior strength combined with ultra light weight. This provides greater support and stability than traditional round legs.** Other features include: cobalt grey anodized matte finish for reflection-free photography, large Quick-Release pan head with quick release plate and center brace for additional support.

- **Unique removable center column instantly removes and converts into a monopod!**
- **ALL components are made of 40% fiberglass, re-enforced plastic material.**
- Ideal for 35mm and medium format camera support.
- Features a 3-way heavy duty pan head.
- Sturdy 25mm trapezoidal shaped legs and center support allow maximum stability.
- One touch section locks to insure slip proof height adjustments.
- Anodized Cobalt grey matte finish for reflection free photographs
- Weights...4 lbs.
- Length...23 inches when closed.
- Extended height...58 inches.
- Two year Warranty
- Photo Magazine Award Winner
