## Universal 3000 Tripod

# The "Two-in-One" Tripod" Complete Tripod/w Head and Monopod all in one!

**Universal 3000 Series Tripods:** The Universal 3000 series tripods feature 29mm thick leg sections which provide absolute control of your photo equipment, whether for digital still, film or video, under the most demanding shooting conditions. The **unique trapezoidal closed leg design provides superior strength combined with ultra light weight. This provides greater support and stability than traditional round legs.** The exclusive cobalt gray matte anodized finish insures reflection free photography. The large 3 way one-touch panhead includes a quick-release plate. The built in bubble level and optional mounting plates for flash and macro accessories make the 3000 series tripods one of the most versatile lines available today.

- **Unique removable center column instantly removes and converts into a monopod!**
- **ALL components are made of 40% fiberglass, re-enforced plastic material.**
- Ideal for 35mm cameras with long lens, medium format equipment or larger camcorders.
- Large 3-way heavy duty pan head features a quick-release platform and comes with a quick release plate.
- Sturdy 29mm trapezoidal shaped legs and center support allow maximum stability.
- The patented large round screw-on connection and special teeth-grip system, assures an absolute secure connection and that the head cannot accidentally come off
- One touch section locks to insure slip proof height adjustments.
- Anodized Cobalt grey matte finish for reflection free photographs
- Optional built in handle and retractable shoulder strap.
- Optional mounting plates for flash and macro photography.
- Built in bubble level
- Weights...5 lbs.
- Length...24 inches when closed.
- Extended height...60 inches
- Two year Warranty
- Photo Magazine Award Winner
